Marren Motorsports
49 Burtville Ave., Unit 3A
Derby, CT 06418

Dear Marren Motorsports,

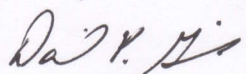

On behalf of the Rensselaer Polytechnic Institute Formula SAE team we would like to thank you for your invaluable contribution to the 2004 racecar. It was a thrilling year, with sweeping design changes that incorporated cutting edge technology. With Marren Motorsports' contribution of fuel injectors, our team was able to put new and innovative ideas into production.

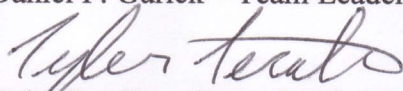

As a result of the team's hard work, dedication, sound engineering, and the commitment of our sponsors, the 2004 car placed 18th in design out of 134 teams at competition. This was a significant achievement for our team, having been judged by professionals from the automotive and motor sports industries. Over the course of our summer campaign, we were awarded the title of North East Division Champions in the Formula SAE class at the SCCA Solo II Championship held in Aberdeen, Maryland.

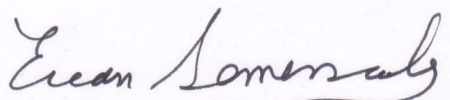

This year promises to be even more exciting for the Rensselaer Formula team. We have adopted a new, much more aggressive timeline for design and fabrication of the racecar. Our deadline for completion is March 31, 2005, which will provide us with valuable testing time before the Formula SAE competition in May.

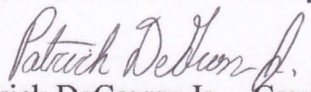

To show our appreciation for Marren Motorsports' commitment to the team, we have included a photograph of the car. Please accept this small token of gratitude for all of the time and resources that you have committed to the project and furthering education. We look forward to working with Marren Motorsports in the future.

Sincerely,

Daniel P. Gurick – Team Leader

Tyler Feralio – Group Leader

Dr. Euan Somerscales – Faculty Advisor

Patrick DeGrosse Jr. – Group Leader
